Residential Soft Washing & Pressure Washing

By Sea Fan Investments

We are Sea Fan Investments, a 100% Bahamian owned Property Management company. Our Principals, Lewis Alman and his wife Maria Alman, are dedicated to offering you the services you need to help you manage and maintain your investment. Today we would like to offer you our in house residential soft washing and pressure washing services.

What Is Soft Washing & Pressure Washing?

Pressure washing uses high pressure to blast away dirt from hard surfaces such as driveways. Our surface cleaner is powered by our trailer mounted, commercial grade pressure washer and makes quick work of the dirtiest concrete.

Soft washing is now the industry norm for all other cleaning. We use low pressure with specialty chemicals and detergents to clean delicate surfaces such as roofs, siding, or coated (painted) surfaces. This service will transform a dirty roof or house finish while helping to extend its lifespan.
